In a small place that few Americans know about, a pro-Trump democratically, elected conservative president is being DISQUALIFIED from holding office by an unelected globalist bureaucrat from the EU & a rigged court for the "crime" of honoring a sacred Christian saint & celebrating a day of ethnic pride because, they say, those actions offended the Muslim majority in Bosnia. The endless persecution of Dodik is reminiscent of the same fake RUSSIAN COLLUSION & other fake crime narratives used against President Trump, Me, Rudy Giuliani & others who dare to challenge the elites. Wake up, America!

The pro Trump president from Hungary is supporting the pro Trump president from Srpska & warning freedom loving people that the same corrupt Russian collusion playbook used against President Trump in America is being used against President Dodik in Bosnia.

It's time for everyone to respect the decision of the PEOPLE of Republika Srpska, who elected @MiloradDodik as their President.

There is no place for legal witch-hunts in a democracy.

Dodik is the Bolsonaro of Bosnia. He is a pro-Trump foreign leader being persecuted by left-wing, nation building globalists who weaponize prosecutions in rigged courts to hijack leaders, elected by the people.

The political witch-hunt in Bosnia and Herzegovina continues. @MiloradDodik was democratically elected by the people as President of Republika Srpska.

It's time everyone understood that the point is not to talk ...

Look what's happening in Bosnia. A weaponized unelected foreign bureaucrat from Germany called a High Representative wants to undo the election of the president of Srpska by doing the same thing to him that the corrupt Weaponized Democratic prosecutors did to President Trump. The freedom loving world needs to wake up.
