The U.S. just removed sanctions from 4 Bosnian Serb officials who were victims of Biden's autopen. This is a step towards fairness and stability in the Balkans. For too long unelected bureaucrats have used lawfare against popular pro Trump leaders like [@MiloradDodik](#)

Grateful to Željka Cvijanović  
of the Republic of Srpska for nominating President Trump for a  
Nobel Peace prize. She is an ally of President Dodik, who like  
Trump, is no stranger to lawfare and unlawful prosecution.

Persecution against Serbian Christian minority in Bosnia continues. A Serb civil servant now faces punishment from a prominent Bosniak minister for POSTING a PHOTO from an event held last year that celebrated the Serb version of the 4th of July. Sec of State Rubio should condemn this. As a Cuban American whose family fled persecution, Sec Rubio knows all too well how dictators quash freedom.
