

From the Capitol to the White House

Thousands to Support Maximum Pressure Policy on Iran's Regime, Stand with the Iranian People's Strive for Regime Change

Call on Administration to Recognize Iranians' Right to Overthrow the Regime Amid Growing Nuclear Threat

Washington, DC – March 2, 2025 — As Washington navigates its Iran policy, thousands of Iranian Americans and supporters of a free and democratic republic in Iran will gather in the nation's capital for a timely rally and march on Saturday, March 8, 2025.

The event comes as the Iranian regime accelerates its pursuit of nuclear weapons and has dramatically stepped up executions, totaling more than 200 since January.

Demonstrators will urge the U.S. government to fully enforce its maximum pressure policy and recognize the Iranian people's right to overthrow the ruling tyranny, which is involved in violent repression and proxy wars.

Last week, over 150 bi-partisan lawmakers sponsored a resolution to support the Iranian resistance's Ten Point Plan for the Future of Iran and expressed support for the Iranian people's desire for a democratic, secular, and non-nuclear republic in Iran by recognizing "the rights of the Iranian people, the protesters, and the Resistance Units to confront the Islamic Revolutionary Guard Corps (IRGC) and repressive forces to bring about change."

WHEN: Saturday, March 8, 2025, 13:00 EST (rally) and 14:30 march to the White House

WHERE: Rally takes place at the Capitol, followed by a march to the White House Capitol Grounds (Capitol Reflecting Pool), 3rd St SW & Jefferson Dr. SW

WHO: Thousands of Iranian-Americans, human rights advocates, and supporters of the Iranian Resistance from across the United States

WHY IT MATTERS: This rally marks a critical moment for U.S. foreign policy. Last week, H.Res.166, introduced by over 150 bi-partisan co-sponsors, supported this policy on Iran; now, thousands of Iranian-Americans will march from the Capitol to the White House to support it. The U.S. administration has a unique opportunity to stand with the Iranian people as they strive for freedom to end the epicenter of terror and make the world a safer place. With the Iranian regime at its weakest point, it has stepped up its drive to acquire nuclear weapons and is dangerously close to nuclear weapons capability.
