GRID BOOST: Base Power co-founder and CEO Zach Dell discusses the **challenges facing America's electrical grid** amid skyrocketing electricity demand. Dell explains how his company's home battery backup technology helps Texas homeowners manage rising utility bills and maintain power reliability. The discussion highlights how the artificial intelligence boom and data centers are accelerating the nation's power crunch.

POWER STRUGGLE: The artificial intelligence boom is fueling a **data center rush in Texas** and opening a rare divide between President Donald Trump and one of his closest political allies — Republican Gov. Greg Abbott.

HARD HAT ECONOMY: The future of artificial intelligence **may depend less on coders** than on construction workers, electricians and factory technicians.
