Why removing tariffs on products that can't be made in America will benefit the U.S.

11 HRS AGO

[*] ADD POST AND COURIER NEWS ON GOOGLE

The U.S. government has collected roughly \$340 billion in import duties since President Trump announced his Liberation Day tariffs over a year ago. And the economic impact has been more complex than either the supporters or the critics want to admit.

But as critics have noted, tariffs are essentially sales taxes on imports — which inevitably means

that's exactly the opposite of what the supporters want.
