WHO HAS SAID WHAT ABOUT THE INTELLIGENCE FAILURE BEFORE 7 OCTOBER?

What Israel's military, the Shin Bet and the Prime Minister's Office have said about the intelligence failure before the attack of 7 October 2023.

Israel's military said on 27 February 2025 that its fundamental failure before 7 October 2023 was a failure to understand Hamas's intentions and its readiness for a wide-scale surprise attack. The Israel Security Agency, known as the Shin Bet, said on 4 March 2025 that it had failed in its mission to prevent the attack. The Prime Minister's Office said on 4 March 2025 that the head of the Shin Bet had misread the intelligence picture and was trapped in a false perception.

What happened in the attack on Israel on 7 October 2023?

Hamas led an attack on Israel on 7 October 2023, in which its gunmen targeted border communities and took hostages.

Israel's military offensive in Gaza after the attack began with air strikes and was followed by a ground invasion.

What have the IDF, Shin Bet and PMO said about intelligence failures?

Israel's military said on 27 February 2025, in a summary of its investigations into 7 October 2023, that its fundamental failure was a failure to understand Hamas's intentions and its readiness for a wide-scale surprise attack. The IDF said that it had believed that Hamas did not want a full-scale war. Its senior officers wrote that commanders had been addicted to precise intelligence and had not considered other scenarios.

The Israel Security Agency said on 4 March 2025, in a summary of its own investigation, that it had failed in its mission to prevent the attack of 7 October 2023. The agency said that it had received a sequence of signs that Hamas was preparing for an emergency, but had decided that Hamas was not interested in escalation. It said that it had large gaps in recruiting and running human agents

in Gaza, and that the division of responsibility between it and Israel's military for detecting an attack from Gaza was unclear.

Ronen Bar, head of the Israel Security Agency, said on 4 March 2025 that the attack would have been prevented had the agency acted differently in the years before it and on the night it began.

The Prime Minister's Office said on 4 March 2025 that the head of the Shin Bet had failed in everything related to the agency's handling of Hamas, and had misread the intelligence picture. The office said that the agency's main assessment, days before the attack, was that Hamas wanted to keep things quiet and avoid escalation. It said that the agency had not dealt with the Jericho Walls plan in its assessments or on the night of the attack, and that the plan had not been presented to the prime minister before 7 October 2023.

Israel's military said on 10 November 2025 that an expert team reviewing its investigations had named an intelligence failure, in understanding the threat and in not giving warning, among the central causes of the failure of 7 October 2023. The IDF said that, in the team's view, the Intelligence Directorate had failed to give warning, and that its collection in Gaza rested on access too narrow to allow warning. It said that the team had examined only the IDF's own investigations, not the space between the political and military levels or between the IDF and other security agencies.

Which Israeli bodies have issued statements on the 7 October intelligence failure?

Israel's military, the Israel Security Agency and the Prime Minister's Office have each issued statements on the intelligence failure before 7 October 2023. The table lists them by date.

Nothing less.” Spielman also said to Reuters on 2 August 2026: “The most important concern for Israel is that nothing can happen before Hamas completely and truly disarms.”

Israel’s Prime Minister’s Office said in a statement on 17 August 2026 that Israel and the Board of Peace had agreed that demilitarisation “should be prompt and completed before any reconstruction.”

Israel's military says that its forces in Gaza are deployed in accordance with the agreement.

What does the Gaza ceasefire plan say about Israeli forces?

The ceasefire between Israel and Hamas in the Gaza Strip took effect at noon local time on 10 October 2025. In October 2025, Israel's government and Hamas agreed to the first phase of US President Donald Trump's Comprehensive Plan to End the Gaza Conflict.

The Comprehensive Plan provides that Israeli forces will withdraw to an agreed line to prepare for a hostage release, and that battle lines will remain frozen until conditions are met for a complete staged withdrawal.

What does resolution 2803 say about Israeli withdrawal from Gaza?

UN Security Council resolution 2803 was adopted on 17 November 2025, at the Council's 10046th meeting.

Resolution 2803 provides that, as the International Stabilization Force establishes control and stability, the Israel Defense Forces will withdraw from the Gaza Strip based on standards, milestones and timeframes linked to demilitarisation, save for a security perimeter presence.

Israel's government approved, in Decision 3396, the framework for the release of all Israeli hostages. The decision says that "there shall be a ceasefire commencing at the time of the adoption of this decision", and that the IDF was to deploy as the maps in an annex to the decision show.

Decision 3396 says that after the release of the hostages, the IDF was to deploy as a second annex of maps shows, "in order to prevent friction with the population in the Gaza Strip".

The decision also says that if the hostage release it provides for is not fulfilled, "the ceasefire shall be cancelled and the IDF shall no longer be bound by the deployment at Annex D."

Where does Israel's military say its forces are deployed in Gaza?

Israel's military said in 2025, after the ceasefire took effect, that forces under its Division 252 were operating in the northern Gaza Strip east of the line it calls the yellow line, which it describes as a forward line inside the Strip. Israel's military said that the activity was in accordance with the ceasefire agreement and the directives of the political leadership.

Israel's military said on 13 April 2026 that its forces under Southern Command are deployed in the area in accordance with the agreement, and will continue to act to remove any immediate threat.

1,708,822 people were living in 1,591 displacement sites on 16 May 2026. The World Bank, the European Union and the United Nations put recovery and reconstruction needs at US$71.4 billion over the next decade in their 2026 assessment.

How many people in Gaza face acute food insecurity?

The Integrated Food Security Phase Classification said on 23 July 2026 that "over 1.2 million people (59 percent of the population) faced Crisis or worse conditions (IPC Phase 3 or above), including 212,000 people in Emergency (IPC Phase 4)" between mid-April and 30 June 2026.

For July to December 2026, the IPC said that "more than 1.4 million people (67 percent)" were expected to face Crisis or worse, including 212,000 people remaining in Emergency. The IPC also said that "even small disruptions to humanitarian access could rapidly reverse recent gains."

UNICEF Executive Director Catherine Russell said on 23 July 2026: "Acute malnutrition has fallen, but many children are still going hungry, and some children may never fully recover from prolonged lack of proper nutrition."

How much food aid is reaching Gaza?

COGAT said in its July 2026 report that 1,778,363 metric tons of food entered the Gaza Strip between 10 October 2025 and 7 June 2026. COGAT said in the same July 2026 report that 18,000 tons of medical supplies and medicines had entered Gaza since the ceasefire began.

The World Food Programme said on 19 October 2026 that funding shortages had forced it to reduce food assistance in Gaza by around one-third. The World Food Programme said that it was supporting 1.1 million people in Gaza with food and cash assistance in October 2026, down from 1.6 million in September 2026.

Where are displaced people in Gaza living?

The Gaza Strip is divided into five governorates: North Gaza, Gaza, Deir al-Balah, Khan Younis and Rafah.

The UN Site Management Cluster said that 1,591 active displacement sites held an estimated 1,708,822 people on 16 May 2026. The Site Management Cluster said that 83% of the sites were makeshift: informal, open-air and tented.

UNICEF said in its mid-year 2026 update that 1.9 million of the 2.1 million people in the Gaza Strip had been displaced, many of them several times, citing a UN estimate in 2025.

Do people in Gaza have enough water?

UNICEF said in its mid-year 2026 update that “Nearly 90 per cent of water and sanitation infrastructure has been damaged or destroyed.” UNICEF also said that “An estimated 82 per cent of families are water insecure.”

COGAT said in its July 2026 report that more than 70,000 cubic meters of water a day were facilitated into Gaza through external water lines and desalination facilities, excluding local wells.

How much would it cost to rebuild Gaza?

The World Bank, the European Union and the United Nations put recovery and reconstruction needs in the Gaza Strip at US$71.4 billion over the next decade, including US$26.3 billion in the first eighteen months, in their 2026 Rapid Damage and Needs Assessment.

The World Bank, the European Union and the United Nations said in the same 2026 assessment that over 371,888 housing units in Gaza had been destroyed or damaged.

WHAT HAS THE ICJ ORDERED IN SOUTH AFRICA V. ISRAEL?

The International Court of Justice's orders on provisional measures in South Africa v. Israel, of 26 January, 28 March and 24 May 2024.

DOCUMENT 10 November 2026

International Court of Justice | South Africa v. Israel | Provisional measures | Gaza Strip

The International Court of Justice (ICJ) issued three orders on provisional measures in South Africa v. Israel, on 26 January, 28 March and 24 May 2024.

Received by NSD/FARA Registration Unit 11/11/2026 3:34:28 PM

The case, Application of the Convention on the Prevention and Punishment of the Crime of Genocide in the Gaza Strip (South Africa v. Israel), was brought by South Africa in an application filed with the Court on 29 December 2023. Each order sets out measures that open with the words “The State of Israel shall”.

What did the ICJ order Israel to do on 26 January 2024?

The ICJ’s order of 26 January 2024 indicates six provisional measures, each addressed to Israel. The first, adopted by fifteen votes to two, says that Israel shall “take all measures within its power to prevent the commission of all acts within the scope of Article II of this Convention”.

The order says that Israel shall “ensure with immediate effect that its military does not commit any acts described in point 1 above”. By sixteen votes to one, it says that Israel shall “take all measures within its power to prevent and punish the direct and public incitement to commit genocide in relation to members of the Palestinian group in the Gaza Strip”.

By sixteen votes to one, the order also says that Israel shall “take immediate and effective measures to enable the provision of urgently needed basic services and humanitarian assistance to address the adverse conditions of life faced by Palestinians in the Gaza Strip”. Its remaining measures concern the preservation of evidence and a report to the Court “on all measures taken to give effect to this Order within one month”.

The Court said in the same order that “at the present stage of the proceedings, the Court is not required to ascertain whether any violations of Israel’s obligations under the Genocide Convention have occurred.” It said that “such a finding could be made by the Court only at the stage of the examination of the merits of the present case.”

What did the ICJ order on humanitarian aid on 28 March 2024?

The ICJ's order of 28 March 2024 "reaffirms the provisional measures indicated in its Order of 26 January 2024", by fourteen votes to two. It indicates two further measures, which open "in view of the worsening conditions of life faced by Palestinians in Gaza, in particular the spread of famine and starvation".

Unanimously, the order says that Israel shall "take all necessary and effective measures to ensure, without delay, in full co-operation with the United Nations, the unhindered provision at scale by all concerned of urgently needed basic services and humanitarian assistance". It names food, water, electricity, fuel, shelter, clothing, hygiene and sanitation requirements, and medical supplies and care, "including by increasing the capacity and number of land crossing points and maintaining them open for as long as necessary".

By fifteen votes to one, the order says that Israel shall ensure "that its military does not commit acts which constitute a violation of any of the rights of the Palestinians in Gaza as a protected group under the Convention".

The Court said in the same order that it could not indicate the first three measures South Africa had sought, which were addressed to states or entities that are not parties to the case.

What did the ICJ order about Rafah on 24 May 2024?

The ICJ's order of 24 May 2024 reaffirms the measures of 26 January and 28 March 2024, "which should be immediately and effectively implemented", by thirteen votes to two. It indicates three further measures, each by thirteen votes to two, which open "in view of the worsening conditions of life faced by civilians in the Rafah Governorate".

The order says that Israel shall "immediately halt its military offensive, and any other action in the Rafah Governorate, which may inflict on the Palestinian

group in Gaza conditions of life that could bring about its physical destruction in whole or in part".

The order also says that Israel shall "maintain open the Rafah crossing for unhindered provision at scale of urgently needed basic services and humanitarian assistance". The order says that Israel shall ensure access to the Gaza Strip for any commission of inquiry or other investigation mandated by organs of the United Nations.

What has the ICJ said about the hostages held in Gaza?

The ICJ addressed the hostages in the reasoning of its order of 26 January 2024. The Court said that it "is gravely concerned about the fate of the hostages abducted during the attack in Israel on 7 October 2023 and held since then by Hamas and other armed groups, and calls for their immediate and unconditional release."

In its orders of 28 March and 24 May 2024, the Court "reiterates its call for their immediate and unconditional release".

What did South Africa ask the ICJ to order?

South Africa's application in South Africa v. Israel was signed at The Hague on 28 December 2023 and filed with the Court on 29 December 2023, with a request for the indication of provisional measures.

South Africa said in its application that "pursuant to Article 36 (1) of the Court's Statute and Article IX of the Genocide Convention, the Court has jurisdiction to hear the claims submitted in the present Application by South Africa against Israel."

South Africa also said that "South Africa reserves the right to revise, supplement or amend the terms of this Application, as well as the grounds invoked."

WHAT DID THE WORLD FOOD PROGRAMME ANNOUNCE ABOUT FOOD AID IN GAZA IN OCTOBER 2026?

Food Programme said that it would reduce food assistance in Gaza by around one-third, and that half a million people would lose access to critical assistance. The Gaza Government Media Office said the same day that the announcement threatened the humanitarian situation in Gaza.

What happened with World Food Programme aid in Gaza on 19 October?

The World Food Programme announced cuts to its food assistance in the Gaza Strip on 19 October 2026. Reuters and the Associated Press reported the announcement the same day.

The World Food Programme said that funding shortages had forced it to reduce food assistance in Gaza by around one-third. The World Food Programme's acting Executive Director, Carl Skau, said: "We tell the world now is not the time to look away."

The Gaza Government Media Office said on 19 October 2026 that the decision to halt food assistance to half a million people in Gaza amounted to giving a green light to accelerate the pace of famine. The office also called for funding for the World Food Programme.

How are the World Food Programme's cuts changing food aid in Gaza?

The World Food Programme said on 19 October 2026 that it had cut food rations by half, so that families receiving food assistance would get one food parcel instead of two and a smaller bag of wheat flour. The World Food Programme said that it had also reduced the value of cash assistance provided to 75,000 families.

Skau said that the World Food Programme would now give priority to those most in need: the sick, mothers and children at risk of malnutrition, and people living nearest the line where Israeli forces remain.

When did the Gaza ceasefire take effect?

The ceasefire between Israel and Hamas in the Gaza Strip took effect at noon local time on 10 October 2025. In October 2025, Israel's government and Hamas agreed to the first phase of US President Donald Trump's Comprehensive Plan to End the Gaza Conflict.

Israel's government decision of 9 October 2025 provided that "there shall be a ceasefire commencing at the time of the adoption of this decision", according to the decision's text.

What did Israel's government agree on hostages and prisoners?

On 9 October 2025, Israel's government decided that 20 living Israeli hostages, 2 whose lives were gravely feared for and whose deaths had not been determined, and 26 deceased hostages would be returned within 72 hours of the IDF's deployment, according to Israel's government.

The release of 250 prisoners and detainees held by the Prison Service was approved in the same decision, according to Israel's government. The release of 1,700 detainees from Gaza not involved in the events of 7 October 2023 and arrested after that date, together with 22 minors under 18 in the same category, was also approved, according to Israel's government.

The Comprehensive Plan to End the Gaza Conflict is annexed to UN Security Council resolution 2803, which endorsed the plan on 17 November 2025. The plan provides that Hamas and other factions will have no role in the governance of Gaza, and that Gaza will be demilitarised under the supervision of independent monitors.

The Security Council adopted resolution 2803 with 13 votes in favour, none against and 2 abstentions, China and the Russian Federation, according to the UN account of the Council's 10046th meeting.

What does the Gaza peace plan say about Israeli withdrawal?

The Comprehensive Plan provides that Israeli forces will withdraw to an agreed line to prepare for a hostage release, and that battle lines will remain frozen until conditions are met for a complete staged withdrawal.

Resolution 2803 provides that, as the International Stabilization Force establishes control and stability, the Israel Defense Forces will withdraw from the Gaza Strip based on standards, milestones and timeframes linked to demilitarisation, save for a security perimeter presence.

Who oversees the Gaza ceasefire and the plan?

Resolution 2803 welcomed the establishment of the Board of Peace as a transitional administration to coordinate funding for the redevelopment of Gaza, and authorised a temporary International Stabilization Force in Gaza, both until 31 December 2027, subject to further action by the Council. A committee of Palestinian technocrats, the National Committee for the Administration of Gaza, was appointed in January 2026.

UN Security Council resolution 2803 refers to the role of the United States, Qatar, Egypt and Türkiye “in having facilitated the ceasefire in the Gaza Strip”. The leaders of the United States, Egypt, Qatar and Türkiye signed the Trump Declaration for Enduring Peace and Prosperity on 13 October 2025.

In the Declaration, the four leaders committed to “the resolution of future disputes through diplomatic engagement and negotiation rather than through force or protracted conflict.”
