Hello ,

In case you missed it, Yemen's government has condemned IRGC and Hezbollah military involvement in Yemen, calling for international action to halt their support for the Houthis and hold those involved accountable.

The condemnation follows Interior Minister Ibrahim Ali Haidan's report that 21 foreign experts—14 from the IRGC and seven from Hezbollah—are supporting Houthi operations, including operational planning, missile and drone development, and the targeting of commercial vessels.

The government linked this involvement to civilian suffering, particularly in Taiz, and warned of threats to Red Sea shipping, global trade and regional security.

The Foreign Ministry's statement and details from the Ministry of Information are linked below. Happy to provide further details or help coordinate a conversation with a Yemeni government representative.
