Subject: Yemen Ambassador Welcomes Renewal of UN Sanctions on the Houthis

Attachment: Yemen_Welcomes_Renewal_of_UN_Sanctions_on_the_Houthis.pdf

---

Hello

As you may have seen, the UN Security Council recently voted to extend their sanctions on the Houthi terrorist group. Please find a quote from Ambassador Rajaa on the importance of the renewal at this dire time.

“We welcome the UN Security Council’s renewal of sanctions against the Iran-backed Houthis. But sanctions must be enforced, not merely renewed.

From the devastating siege affecting 1.3 million civilians in Taiz to attacks on international shipping and the continued detention of UN personnel and U.S. Embassy employees, the Houthis continue to threaten Yemeni lives and regional security.

We urge the international community to enforce the arms embargo, dismantle illicit weapons and financing networks, and expand sanctions to hold those responsible accountable.

We thank the United States and United Kingdom for their leadership and reaffirm Yemen’s commitment to protecting civilians, restoring peace, and safeguarding international navigation.”

— Ambassador Jamila Ali Rajaa, Yemen’s Ambassador to the United States

Additionally, please find attached, below, and linked the statement from Yemen’s Permanent Representative to the UN, Ambassador Abdullah Al-Saadi:

Yemen Welcomes Renewal of UN Sanctions on the Houthis

Ambassador Abdullah Al-Saadi, Yemen’s Permanent Representative to the United Nations, provided this statement following the UN Security Council’s adoption of the resolution renewing sanctions on the Houthis:

“While we welcome the clear condemnation of the Houthi military escalation contained in this resolution, as well as the Security Council’s demand that the Houthi militias immediately and unconditionally cease their military escalation and attacks, we regret that the Council was unable to reach a consensus on calling things by their proper names and recognizing the Houthi militias for what they truly are: a terrorist organization.

This designation is warranted by their extensive record of terrorist acts, including attacks against civilians and civilian infrastructure, cross-border attacks, the targeting of commercial vessels and international maritime shipping, and grave violations of human rights and international humanitarian law.”
